

SMALL BUSINESSES AND RECYCLING INFORMATION

Lower Allen Township is a mandated community, according to the Department of Environmental Protection (DEP), and must recycle. Small businesses in the Township who contract for their own trash removal may be eligible for residential rates and curbside recycling.

If your business disposes of five or less than forty gallon containers of trash per week, you may be eligible to save money by contacting the Township office at 975-7575. Curbside recycling offers you and your employees the opportunity to recycle items that are currently thrown out with regular trash such as soda/aluminum cans and glass/plastic bottles. The Township will provide you with a recycling container.

The opportunity is available to increase your recycling efforts and to save money at the same time.
